SPECIFICATIONS

Our LW line are lowweight standalone plates and are available as a multi-curved front plate aswell as two sizes of single-curved side plates.

The plates are 100% HPPE (High performance Polyethylene) made with materials from Honeywell and Dyneema. This also ensures high protection capabilities against multiple hits.

The plates are very drop resistant and are covered with a liquid-repellent Cordura cover, which protects the ballistic properties against water, oil and similar liquids.

The plates have a thickness of 28mm.

7-year ballistic warranty.
