MODULAR PLATE CARRIER SYSTEM

KEY FEATURES

**EXTREMELY
DURABLE**

**QUICK
RELEASE**

**TEMPERATURE
RESISTANT**

**MADE IN
EUROPE**

SPECIFICATIONS

The PGD CORE Plate Carrier is a lightweight, modular plate carrier system designed for military and law enforcement use.

Constructed from ORIGINAL 500D Cordura® laminate, it offers high durability, IRR-safe materials, and a low-profile design optimized for mobility and comfort.

The carrier features integrated quick-release systems, AVS-compatible zippers for back panel integration, and a reinforced HDPE skeletal cummerbund for stable load distribution.

- 40 mm ROC buckle or Velcro® shoulder closure options
- Laser-cut MOLLE on cummerbund and rear plate bag
- Velour-lined interior for comfort pad integration
- Optimized for EUD and communication equipment
- Shock cord routing for cable and PTT management
- Designed for excellent weapon handling and shouldering

PLATE COMPATIBILITY

- SAPI / ESAPI
- Standalone and ICW configurations
